- First Name e.g. John
- Last Name e.g. Smith
- Gender – Male/Female
- Date of Birth e.g. Jan 1 1980
- Country – United Kingdom
- Desired Email Address...

You need to pick an email address that no one else in the world already has... e.g. John Smith is a very popular name so we added 500 to the end to make it more unique. It is very rare you would ever be able to create an email account with just your first and last name.

- Password...

Again you have to pick a unique password that follows strict security criteria – **at least 8 characters / mixture of numbers and letters / mixture of lower and UPPER case letters / at least 1 special character e.g. !£\$%\*&#**

**For example:** The password we used for this account was... J0hnSm1th!
